

Mystery Island

By Bianca Halliday

Once there was an island that had a beautiful beach. Then one morning it all disappeared. Then fairies flew to the island and they saw that it had been demolished. The fairies tried to help it but they could not fix it.

Then one day an old man came he saw the place he tried to fix it. He planted trees and that worked. He found sand and it became a beach. That worked. He found some people to live on the island but when they came to live a flood appeared. So the people screamed and ran away onto a helicopter to fly back to where they lived just before they left it al. They were really relieved so they stayed at the mystery island forever and they loved it.
